

**INDUSTRIAL GAS | MEDICAL GAS | LIQUID PETROLEUM GAS (LPG) |
GAS CONTROL | WELDING EQUIPMENT & CONSUMABLES**

Argon Gas, Carbon Dioxide Gas, Acetylene Gas, Helium Gas, Nitrogen Gas, Oxygen Gas, Calibration Gas, Refrigerant gas, Medical Oxygen, Carbon Monoxide Gas, Gas Mixtures.

Who we are

Gasit Botswana is an Authorized Distributor for Air Products Inc. We specialize in the supply of a wide variety of INDUSTRIAL AND SPECIALTY GAS products (oxygen, nitrogen, argon, carbon dioxide, acetylene, specialty gases, gas mixtures, refrigerant products, bulk industrial gases), MEDICAL GAS, Bulk Liquefied Petroleum Gas (LPG) to the industrial, commercial and institutional market and Gas Control, Cutting & Welding Equipment & Consumables.

Our Mission

To become a partner of choice with reliable support in the gas supplies, gas control, cutting & welding equipments & consumables in the local market.

Our Core Values:

- Safety first: First priority is to make a safe business
- Customer : Top Priority is to serve our customers needs
- Commitment: Fulfull all our commitments to the highest standards
- Quality : Through continuous Improvements.
- Flexibility: To survive the ever changing business environment

Quality Statement

Delivering a quality product, safely and on time, first time and every time. That will allow Gasit Botswana to maintain a firm position in the local Gas Industry

SHEQ Policy

Safety is our priority in storage and delivery of our products and the design and execution of our work and beyond. We believe that any service/product that we offer must not have adverse consequences on our clients, employees or the public at large. We therefore take deliberate positions to adhere to the highest safety regulations and standards locally and globally.

We choose to adhere to standards that ensure that there is no short term or long term health effects on our people. Continuity in any business depends on the way the resources and the environment are used and handled. It is our pledge that in whatever we supply/do our environment must not be harmed. We believe in using environmentally friendly products and provide our services in an environmentally friendly manner.

Our Products & Services

1. Industrial Gas

Air Products offers a comprehensive range of welding and speciality gasses, and is known for their excellent range and quality. Air Products is one of the largest gas and chemical companies globally and having their support provides us with an edge in this competitive market. Gasit Botswana stocks the following gas:

- Industrial Gas
- Bulk Industrial Gas (CryoEase®Service)
- Speciality Gas
- Gas Mixtures
- LP Gas (Liquefied Petroleum Gas) to industrial and commercial customers

2. Liquid Petroleum Gas (LPG)

Gasit Botswana specialize in all commercial, institution and industrial LPG supply. Our product range offering from packaged 14, 19 and 48Kg to microbulk, and onsite filling of bulk tanks.

Why Choose Us?

We offer high-quality gas at competitive prices, backed by our commitment to customer satisfaction. Infact we want to manage gas on your behalf and let you focus on your core business. So, let Gasit Botswana be your trusted LP Gas management partner.

WE SUPPLY LPGAS TO:

- Retailers, Restuarants, Schools
- Hospitals, Hotels, Guest Houses
- Farms, Industrial Customers

Other Services includes

- Domestic Installation
- Commercial Installation
- Inspection and certification of existing Installation
- Sales of LPGas Installation materials and Consumables

Sales of LP Gas equipment & Services

We Supply equipment of a reputable origin, complying with national and international standards and of quality you can rely upon. Such products are as follows:

- Schedule 40 Steel pipes & Fittings
- Gas Detection
- Gas Filters for vapour
- Regulators
- Vaporizers
- Valves
- Pigtails, Hoses and Compounds
- Solenoid Valves
- Cylinder Valves
- Manifolds
- Pressure Gauges and Digital Instruments
- Copper
- Safety Signs
- PEX piping & fittings

3. Welding Equipments & consumables

Gasit Botswana supply various welding machinery & equipment, consumables such as ARC (MMA Welding Machines), MIG Welders, TIG Welders, Welding Rods, Welding Cables, Welding Wire, MIG Torch Tips & Welding spares, Rods and Migwire.

4. Gas Contol, Cutting & Consumables

Gasit Botswana is a qualified suppliers of Industrial Gas Regulators and Gas Cutting Equipment. We supply a wide range of special application Industrial Gas Regulators, including high pressure and volume regulators for Nitrogen, Hydrogen, Helium, Carbon dioxide, Argon, Acetylene and Oxygen to industries such as Mining, Food Packaging, Scrap Metals, Fire Suppression, Desalination and HVAC.

Our products are manufactured to meet the full requirements of the EN ISO standards such as EN ISO 2503, EN ISO 5172, EN ISO 730, EN ISO 562, EN ISO 837, as well as UL, AWS, CE and DNV.

5. Technical Services

Gasit Botswana offers specialised technical services in the gas industry that encompass a wide range of activities related to the design, installation, maintenance, repair, and inspection of gas infrastructure, including pipelines, storage facilities and metering equipment, ensuring safe and reliable gas delivery. Key areas include engineering services, inspection services, maintenance and repair services, leak detection, and project management.

Our technical services includes

Engineering Services

- **Pipeline design and engineering:** Designing new pipelines, modifications to existing ones and considering all other requirements.
- **Inspection Services:** Assessing the condition of pipelines and equipment through visual examinations.

Maintenance and Repair Services

- **Routine maintenance:** Performing scheduled maintenance tasks on pipelines, valves, and other equipment to prevent failures.
- **Leak repair:** Locating and repairing gas leaks using specialized equipment.

Leak Detection

- Employing portable leak detection equipment to identify leaks in distribution networks.

Project Management

- **Project planning:** Defining project scope, timelines, and budget for new or maintenance projects.
